

SHREESHA S

Bengaluru, India | +91 6360937933 | shreesha2468@gmail.com | linkedin.com/in/shreesha-s-33ab21311 | github.com/shree-sha

Data and AI professional with 2+ years of combined experience in data analytics and software development. Skilled in Python, SQL, data analysis, machine learning, Power BI, Excel, FastAPI, REST APIs, RAG, prompt engineering, and LLM integration. Experienced in data cleaning, exploratory data analysis, statistical analysis, forecasting, dashboard development, backend development, and AI-powered application development.

TECHNICAL SKILLS

- Programming & Querying:** Python, SQL, TypeScript
- Data Analysis:** Pandas, NumPy, Jupyter Notebook, Data Cleaning, EDA, Data Transformation, Data Validation, Statistical Analysis, Trend Analysis, KPI Reporting
- Machine Learning:** scikit-learn, Regression Analysis, Time-Series Forecasting
- AI & GenAI:** RAG, Prompt Engineering, Ollama, Local LLM Integration, LLM Applications
- BI & Visualization:** Power BI, Tableau, Excel, Data Visualization
- Databases:** PostgreSQL, MS SQL Server, SQLite, MongoDB, Firebase
- Backend & Tools:** FastAPI, REST APIs, Docker, React Native, Drizzle ORM

PROFESSIONAL EXPERIENCE

- Software Developer | Techmust Software Pvt Ltd, Bengaluru** 2025 – Present
- Developed a personalized meal recommendation application using Python, RAG, React Native, Firebase, and Docker, integrating AI-driven recommendations into application workflows.
 - Developed and maintained backend features for a multi-tenant platform using PostgreSQL, Drizzle ORM, Next.js, and TypeScript.
 - Worked with structured data, databases, backend workflows, and data-processing functionality to support reliable application operations.
- Data Analyst Intern | LearnBay, Bengaluru** 2024
- Analyzed retail sales data using Python, Pandas, and Jupyter Notebook to identify sales trends, demand patterns, and performance indicators.
 - Cleaned, transformed, and validated datasets for analysis, forecasting, reporting, and visualization.
 - Performed exploratory and statistical analysis and applied time-series forecasting for retail demand analysis.
 - Developed an interactive Power BI dashboard to track KPIs, sales trends, demand patterns, and performance metrics.

PROJECTS

- AI Interview Coach | Python, FastAPI, React, SQLite, Ollama**
- Developed a full-stack AI-powered interview platform that generates role-specific technical questions and evaluates candidate responses using a locally hosted LLM.
 - Built FastAPI REST APIs and integrated Ollama for LLM-powered application workflows and response generation.
- Multi-Store Sales & Inventory Analytics | SQL Server**
- Analyzed product, store, sales, and inventory data using SQL Server to identify trends and performance patterns.
 - Designed SQL queries for data extraction, transformation, aggregation, and analysis.

EDUCATION

- Master of Computer Applications (MCA) | Presidency College 2021–2023
- Bachelor of Computer Science (BSc) | St. Anne's Degree College 2018–2021

CERTIFICATIONS

Python for Data Analytics | SQL & MongoDB for Data Analytics | Advanced Excel for Data Analytics | Tableau & Power BI for Data Analytics
